Brand New Book ***** Print on Demand *****.Available measures and awardee data provide some evidence that Hospital Preparedness Program (HPP) awardees have generally made progress in carrying out activities to achieve medical preparedness goals; however, the Department of Health and Human Services (HHS) Office of the Assistant Secretary for Preparedness and Response (ASPR) lacked a comprehensive performance management system to fully assess awardee progress. According to prior GAO work and the GPRA Modernization Act of 2010 (GPRAMA), successful performance measurement systems should include a select set of performance measures tied to realistically achievable targets with clearly defined milestones. GAO's analysis of ASPR data showed general progress. For example, the percentage of all 62 awardees participating hospitals with medical evacuation and shelter-in-place plans increased from 79.9 percent to 88.3 percent from fiscal year 2007 to fiscal year 2011. However, while ASPR collected data on a range of activities, it did not have consistent performance measures and targets in place across this entire period. Beginning with fiscal year 2012, ASPR developed new provisional performance measures for the eight new capabilities that awardees are to use for...
