Reviews

This is basically the finest publication i actually have go through till now. We have read and i also am confident that i am going to likely to read through again once more in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.

And then there are the things she sees. Strange portents that have a way of becoming real. Eighty years later, Mina Morgan is brought to the same hospital after a near-fatal car crash. She is in terrible pain but recalls nothing. She s not even sure whom to trust. Mina too sees things that others cannot, but now, in hospital, her visions are clearer than ever. Two women, separated by decades, are drawn together by a shared space and a common need to salvage their lives.
